Jean-Paul Sartre : Typhus (The French List) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Typhus (The French List):

1 of 1 people found the following review helpful. From Sartre to finish. By Razor I think this play opens very well with powerful scenes and wonderful words, but I personally thought a lot of Sartre's other plays were better. Furthermore, I think a lot of the others (such as No Exit) are more meaningful to Sartre's project. Not a bad read though. You can get through it pretty quickly.

"Sartre's lost screenplay is a tale of human redemption against a backdrop of utter hopelessness, a common theme in the work of the French existentialist. . . . Sartre's existential philosophy is better known through his creative works than his philosophical treatises. The first English translation of this screenplay, written in 1943/44 and rediscovered in

2007, adds to that understanding."
