**Bathroom Readers' Institute : Uncle John's Bathroom Reader Fake Facts: Really Unbelievable . . . Because They're Not Real** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Uncle John's Bathroom Reader Fake Facts: Really Unbelievable . . . Because They're Not Real:

5 of 5 people found the following review helpful. it was ok By Adrienne I usually love Uncle John's bathroom reader. I knew it was fake facts when I bought it but It was sorta boring since everything was made up. I think I will just stick with the regular bathroom readers in the future. 0 of 0 people found the following review helpful. Not What I Thought it Was By D Patterson I thought this was a book all about facts that most people THINK are true, but are not. Turns out

it is just a lot of truly random, made-up stuff. I am a devoted Uncle John's reader and it is my fault for not pre-reading a few pages of this book before buying it. 0 of 0 people found the following review helpful. Not Up to Uncle John's Standards. By Charles Slaydon. Don't bother. This along with their book of fiction are the two worst I've read. The rest of the Bathroom Readers are wonderful. I have every single one published, other than those designed for children. I highly recommend the other titles, so why bother with "fake facts" when real ones are more "unbelievable." Seriously.

The crackpot staff of the Bathroom Readers Institute is out of control. After 25 years of laboriously researching facts and verifying them and then verifying them again, Uncle John's mischievous minions decided to blow off a little steam. The result: Fake Facts. Its stuff that isn't even remotely true just made it sound real. Why? Because it's really funny. Fake Facts is 228 pages of origins, facts, weird products, strange diseases, kooky fads, slang terms, historical oddities, and other fascinating bits of information that are too good to be true . . . because they aren't true. So put aside your BS detector and settle in to read about: The ill-fated Vice President For a Day for kids program How the overfishing of dolphins led to the canned tuna industry Crumble, plaidsy, benji, and other British slang Abandoned rules of early baseball, and obscure rules of grammar How early vegetarians gave Boston its Beantown nickname The secret superpowers of twins James Joyce's unpublished sci-fi trilogy Unicorns, wizards, and pirates galore And lots more falsified fun!
