

helpful. Just What the Trivia Doctor Ordered! By Mike O'Connor Trivia afficiandos rejoice - here's another wonderful sampling of historical facts, personalities and events from the "Uncle John" franchise. Like its 2001 predecessor which sold 500,000+ copies(!), this installment ranges through all ages and all continents to bring you interesting facts on people, places and sundry things. Fun, informative articles on the history of money, medicine, the Amish, Ninjas, art, inventions, sports, flowers, literature, disasters, purses, salt, famous encounters, great goofs in history, etc., etc. - this book has it all. (I especially like the entries that correct historical inaccuracies. And those entries that spotlight how Hollywood rewrites history in its films). So, pony up your \$16.95, sit back and enjoy!
