Bathroom Readers' Institute : Uncle John's Bathroom Reader Vroom! before purchasing it in order to gauge whether or not it would be worth my time, and all praised Uncle John's Bathroom Reader Vroom!:

0 of 0 people found the following review helpful. Best Book Series By Customer It is tough to write a review for Uncle John's books because they are all great in their own ways. I own over 20 of these books and they are some of the best knowledge anywhere. I am currently completing my doctorate and have to read intense books often. My icing at the end of every night before I fall asleep is reading and Uncle John book. The stories are interesting and I have learned quite a bit over the years. I sometimes am embarrassed by how many times I reference facts I learned from Uncle

John.0 of 0 people found the following review helpful. Good stuff!By KC JonesI've found a lot of the recent Uncle John's releases awfully duplicative and repetitive, but this one isn't. The usual "throne" reading one expects from BRI and well worth it.0 of 0 people found the following review helpful. Good book. Good Christmas gift.By QuintonGood book. Might have bought cheaper elsewhere but when Chistmas day is near, and you know that will get it here, sometimes a little extra is worth it.

Uncle John has the need . . . for speed! (But he always uses his turn signal.) Hop on in and let the Bathroom Readers Institute take you on the ultimate road trip. From the first motorized vehicles to the flying cars of tomorrow, you'll race around the world to learn about some great sets of wheels and the gear heads who make them go. And not just cars, this book has planes, trains, roller coasters, yachts, and massive machines that literally move mountains. So strap on your seatbelts--it's going to be a fun ride! Read about . . .Secrets of Hollywood car chasesThe original Cannonball RunTaking a ride in the hot-tub limoThe drag queenThe history of airshipsThe Black Beetle: a New York Central train outfitted with jet enginesThe yacht that cost more than some countries GDPAround the world in 25 waysA car without a driverA look at how a jet engine worksGhost planes and haunted shipsPal Newman buys a BeetleThe origin of crash-test dummies And much, much more!
