EntertainingBy JudithI hope that it is okay with the author that I don't read these books in the bathroom. I keep books of these types loaded on my Kindle to read on the subway. They are the perfect diversion during my short commute. I do enjoy the Uncle John's bathroom reader books, and I will probably read all of them eventually because they are filled with fun, entertaining information, presented in brief articles.. However, there are better books of this type by Mental Floss and Listverse. Books like 10 Ways to Recycle a Corpse, Five People Who Died During Sex, and An Incomplete Education are a cut above this series. That is why I give these books four stars. There is nothing wrong with the Bathroom Reader series. They are certainly better than a lot of other trivia / esoterica. They are very good, just not quite as intriguing as some others.

The dedicated researchers at the Bathroom Readers Institute return with some fast-acting, long-lasting relief for fans who have been suffering without a new infusion of trademark trivia and obscure facts. Flush with all the usual useless (and occasionally useful) information readers have come to expect, the book eliminates boredom from the daily routine. Ever wonder what to do with Preparation H besides the obvious? Want to learn more about celebrity jailbirds or the history of the RV? Then its time to take the plunge! Other topics include the worst general of World War II, the origin of the shopping mall, space food, project invisibility, and famous Super Bowl ads.
