this book was sort of a disappointment - too many long stories about subjects that didn't interest me, and there were some other items that I found interest in - this is unusual for a bathroom reader - it went on and on about a language that nobody speaks and on and on about the history of the mall - I can't say that wouldn't interest some younger people but I was around when the malls sprung up and knew all about it - still in all the long stories don't usually interest me as much as the short and medium ones do - all-in-all I'd say this book was 50% good and 25% not so hot and 25% of no interest whatever - if I could have I would have given this bathroom reader 2 1/2 stars - oh well, better luck next time ---
