Everybody loves reading the different translations in the book. Sometimes I will give my staff some wisdom of the day by opening to random page, reading

the lyrics, and then the translation. Well worth purchasing for the amusement. 1 of 1 people found the following review helpful. Great gift for friends that are way cooler than you... or their moms By Lacey Gave this to a music producer/DJ friend for her birthday. She is beyond cool and loved it. I know nothing about music and had fun sounding like a fool while I read the lyrics and interpretations aloud. My friend will use this to educate her conservative Texan mother on the rap lyrics she always asks about. We actually used this as a birthday card, and circled, highlighted and drew pictures on the pages that reminded us of our friend. "I love you like a fat kid loves cake," I believe, was the big hit. 0 of 0 people found the following review helpful. Awesome for painful situations By Justin Nelson My college swim coach used to read us a couple of excerpts from the book while we were treading water. It was a great way to keep our minds off the fact that we had to tread water for about 10-15 min. It is really funny and I definitely recommend it if you need something that will get a good laugh out of people.

Collects popular rap lyrics featuring pop-cultural references on money, cars, weapons, and fashion, and provides humorous literal explanations of each lyric in common English.
