ValdezI wonder how could Brady Games approved a half-baked guide like this!It's not that bad actually but it doesn't go deeply in the game...For example, there's a lot of treasures that require several acrobatics using the Photon and jump timing and the guide simply gives you a map of the level, locating them but skipping the how-to-get.For me (and I believe everybody), this is the major problem of this guide.0 of 0 people found the following review helpful.
