From Alfred : Various Short Preludes and Fugues (Kalmus Edition) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Various Short Preludes and Fugues (Kalmus Edition):

Not only scores are now too small, the print quality itself is low: staff lines and text elements have gaps, multiple beams touch etc. This makes everything very hard to read, especially for beginners. It simply looks like a cheap copy. I returned it and was lucky to find an old Peters edition elsewhere - a little discolored due to age, but much more enjoyable. 0 of 0 people found the following review helpful. Not your ordinary Bach Preludes and Fugues By ReagansMomDotCom Kalmus is a widely-liked edition. These Bach selections are great for sight-reading for the student who can benefit from not-so-familiar piano

selections. These are not the Bach Preludes and Fugues considered in his "standard" works. Of course, this review is an opinion. 1 of 1 people found the following review helpful. One Star By Mcmom Very poor quality printing. We really should return it because it's nearly impossible to read.
