These puzzles have been formatted for those who don't want - for whatever reason - too much of a challenge from their word search puzzles. Words are only arranged horizontally and vertically and only read forwards, not backwards. There are no diagonals or overlaps, although words still intersect, as in a normal word search puzzle. Although the words are easy to find, the word lists are still interesting and eclectic. In order to bring you as many puzzles as possible no solutions are provided. Formatted in 24 point Verdana font this book has been designed for people who have very

poor eyesight, as are many of the books in the Puzzled Zebra Books stable.
