2 of 2 people found the following review helpful. Don't waste your money, violinists!! By LunkNot for violinists. This is just the piano accompaniment, like the other review says, with a small violin part on top. There is no violin soloist insert like any typical violin and piano book has. Really stupidly designed. Unless you want to turn the page every 4 seconds and squint to try and read the tiny notes, save your money!!! 2 of 2 people found the following review helpful. no violin part By Kathryn Sager This book is basically the piano part with the violin part written very tiny up above the

piano part. I don't how any violinist could read this music. No separate part came with the book either. I was very disappointed

(String). Compilations of violin literature appropriate for students, arranged by difficulty level.
