whether or not it would be worth my time, and all praised *Visual Shakespeare: Essays in Film and Television*:

This definitive collection of Graham Holderness's writings on Shakespeare in film and television is a unique resource for the study of Shakespeare in the media. The fact that film and television versions of Shakespeare are now accepted as a standard element of Shakespeare studies is due in no small part to the work collected in this volume. It covers Shakespeare in television and film through case studies of *Henry V*, *Taming of the Shrew*, and *Romeo and Juliet*.
