**Peter Aperlo : Watchmen: The Art of the Film** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Watchmen: The Art of the Film:

2 of 2 people found the following review helpful. The Definitive Art Book for Watchmen Movie Fans By JMM[[VIDEOID:moGS5372OEKUG3]] This is a fantastic art book. There are several books out there about the making of the "Watchmen" movie, and some have more text and go into more detail about the production. But in terms of imagery, this book is the best one. I highly recommend it. In the book, you'll find hundreds of images, including:- Storyboards- Early concept art- Pages/frames from the original graphic novel- Costume design sketches- Blueprints for various sets and the Owl Ship- Character portraits- Veidt Enterprises product ads- Full-page screen shots from the movie- Movie Posters 0 of 0 people found the following review helpful. You're stuck in here with me! By Jamil Bhatti A nice, well made "widescreen" book featuring very large and detailed images from the Watchmen movie. And while this is called an art book - and there is definitely a chapter about concept art - most of the book consists of detailed photographs of the sets, costumes and props from the film. It's of special interest to me to see just how exactly they recreated the environments from the comic for the film. The close up images of background sets really drive home how meticulous the filmmakers were, even down to the action figures in Veidt's office. Very impressive, just don't expect lots to read. There are a few pages of text at the start of each chapter, but after that it's mainly images and the occasional caption. Even so, there is quite a lot to pour over whenever it strikes your fancy. If you love the movie, this is a great companion piece. 0 of 0 people found the following review helpful. Five Stars By Erik Christianson Great item, great condition

Discover how director Zack Snyder (300) and his crew faithfully recreated the intricately detailed world and characters of the legendary graphic novel in the eagerly awaited film. From the New York City of an alternate 1985 to the surface

of Mars, the film adaptation of Watchmen is a triumph of design, filled with unique characters and layer upon layer of arresting detail. Featuring scores of production designs, set photos, costume sketches, storyboards and other pieces of conceptual art, Watchmen: The Art of the Film is a lavish celebration of a comic book made real.

"I'm overwhelmed by the commitment, the passion, the palpable desire to do this right." - Watchmen artist Dave Gibbons, on visiting the set of the movie. Praise for Watchmen: - "Watchmen is peerless" -- Rolling Stone "The greatest piece of popular fiction ever produced" -- Lost co-creator Damon Lindelhof "A masterwork representing the apex of artistry" -- Entertainment Weekly About the Author PETER APERLO is an LA-based writer whose credits include the screenplay to the video game 300: March to Glory.
