Not for legit BNB'sBy litaniI agree with other reviewers, could be a good idea but I think the writers of this book were banking on dirty minds filling this out and not really as a legit guest book unless you live in a frat house. The first page has blanks like if I were a blank I would blank all over this house. I run an airbnb and thought this would be a fun way for people to write about their stay but there is way to many ways for this to get dirty.5 of 5 people found the following review helpful. Like the area for scribbling a noteBy CustomerVery cute idea. Like the area for scribbling a note, but there are misspellings in here. Very strange that wasnt checked before publishing. Not a huge issue though.2 of 2 people found the following review helpful. The book is cute. Some fill in the blanks ...By Canadian GirlThe book is cute. Some fill in the blanks may provoke cheeky/rude comments that might be unfit for future guests to read. I may have to censor the book each time I return to my rental unit. I reduced the number of stars because there isn't a date on each guest entry, which I want to have. This seems strange to me since that is an important part of a guest comment, in my opinion.
