Joey Giamatti is the Wilderness Soldier-- a famous survivalist with a virtual following on a channel of popular videos. Fan suggestions lead the marine to an unexpected challenge: packing just the bare essentials for a seven day venture into the wild. It's up to Joey and his trusty canine to stay alive while trying to outrun a gang of escaped prisoners. Danger lurks down every path as Giamatti, his camera man and a sassy cop, try to beat the odds with only the knowledge of

survival to guide them. A refreshingly unexpected and captivating story; I found myself lost in the detailed scenery, rooting for the good guys every step of the way. Jeff Affrunti knows how to keep his fans on the edge of their seats, turning pages till' the very last.

After his narrow escape from captivity in the Afghan desert, Marine Corporal Joey Giamatti returns home to his wife. Now suffering from severe PTSD, his marriage is failing and his hopes of keeping a job look bleak. The one bright light, and what has become his own form of therapy, is a social media channel where he teaches survivalist, military skills to his subscribers. After his military history and reputation as a hero earn him a huge audience, he finds himself taking on increasingly dangerous backwoods adventures to maintain and grow his subscribers. His current idea: Film his seven day adventure facing a vast, untouched wilderness region nicknamed ""The Survivalists' Mount Everest"" equipped with only 10 items of survival his subscribers will choose. Joey knows his skills are up to the task. What he doesn't know is that he'll find himself in the fight of his life when he stumbles upon the surviving passengers of a downed aircraft that was transporting a dangerous group of murderous prisoners, and a female federal marshal who is now their hostage.
